June Theme Summer Fun!

PBS Emotions

This month we're going to continue with the theme of "use your words". Lately we've had a lot of kids just screaming in each other's faces. It's a quick reaction when you're frustrated. However, after both parties have cooled down, we discuss how people don't understand what you're trying to say with screaming, but they do understand when you talk to them and "use your words."
